

How to use the Summary List of Courses

Note: This list was correct when collated. Students must be aware that there is no guarantee that all courses shown will be available in the autumn.

Timetable Information

Students are responsible for looking up each class they find on this list to find what time and day it is running, in order to create a schedule in which there are no clashes. You should not simply write down 4 classes you have found on this list without looking them up.

To look up a class please click the blue hyperlink at the top of the relevant section

E.g. Certificate Level Modules for Accounting, you would click here

Then click on the link for the module code you are interested in.

Once opened, the following module information will be outlined (as in the example, below):

Teaching Location; it is generally easier to choose modules at the same campus

Teaching Semester; make sure the module is taught during the semester for which you are applying

Note: it is not guaranteed that a module will be running in the current academic year. Check the timeslot to see if it is available for your semester

Timeslot; make sure you do not have two or more modules running at the same time.

Click on the hyperlinks 'city campus' and 'north campus' to see the timeslot.

Module Summary; check that the material to be covered is interesting / appropriate to you, and find information about methods of assessment and reading list.

Times

AM (morning) classes are normally taught between 9.00 am and 12:00 pm

PM (afternoon) classes are normally taught between 1:00 pm and 5.00 pm

PM+ (evening) classes are normally taught between 6:00 pm and 9:00 pm

Module Levels and Prerequisites

There are three teaching levels, Certificate, Intermediate and Honours, which broadly correspond to the first, second and third year of study.

Teaching Location	City and North
Teaching Semester	Autumn
Module Level	C
Home Academic Department	LMBS
Module Leader	Ken Reid
Module Web Site	AC1001
Teaching Mode	day
Module Title	Introduction to Financial Accounting
Timeslot	City campus North campus
Credit Rating For Module	15

Consequently, some Intermediate and Honours level modules may only be taken if the student has already completed lower level modules on a related topic – these modules are known as prerequisites. **When a prerequisite is listed you should make sure that you have studied a corresponding course at your home campus** and therefore will have enough subject knowledge to approach the new material.

Module codes

The module code consists of 3 parts: The department initials, the number code, and the **N** or **C** to indicate whether the module is being taught at **North** campus or **City** campus. For example: MK*1001*N

Where the module is highlighted in **purple** on this list and has no campus designation e.g. **AC1002 Accounting**, the module is being taught separately at **both** campuses and you can choose at which campus you would prefer to take your module – **either** North **or** City (**not both!**). When filling in your module registration form, you must indicate where you want to take your chosen module. The choice could depend on which best fits your schedule, or which campus you prefer.

Module Registration Form

You must choose four modules (a total of 12 US credits or 30 ECTS). Use the Module (Course) Registration form supplied and return the completed form to the International Programmes Office, Stapleton House, London Metropolitan University, 277-281 Holloway Road, London N7 8DB by the **1st July 2011**. You may fax it to: +44 207 133 3376. If you are not able to complete your module registration form by this date please contact the Study Abroad Team at studyabroad@londonmet.ac.uk

Please note that **not all of the modules listed in the Online Module Catalogue will be available this semester** and your Intended Study Programme is subject to change. It is important to list approved alternatives in case of schedule changes.

Practical Social Work, Video Editing, Architecture and Aviation modules are **not open to Study Abroad students**, and practical art classes are only open to full time art students unless a portfolio is submitted and approved. **Please visit our Module Registration Website for more information about these and other special or restricted courses**

Sir John Cass Department of Art, Media and Design

In order to register for art classes you must be an art major at your home University. There are a limited number of spaces in each art class and so we cannot guarantee places. You may have to supply a portfolio of work for assessment by an academic, prior to obtaining a place in the class. You should also select non-art classes as a back up, and get these signed off by your academic advisor / tutor.

DESIGN (DE)

Please note Design (DE) modules are for specialists only and have a strong studio ethos. Students interested in registering for these modules must be Design Majors and should be able to submit an electronic portfolio of their work upon request.

Health and Human Sciences

There are a number of courses offered by the Department of Health and Human Sciences under the subject groupings of Biomedical Sciences, Microbiological Sciences, Nutrition and Food Sciences and Sport Science. These modules are open to students whose major involves one or all of the above areas. Should you be interested in taking an HHS course then your application would have to be submitted to the department for approval and certain prerequisites would have to be fulfilled.
