Course Syllabus

Course: CENG-480 Special Topics in Computer Engineering

Department: Engineering

Host Institution: Intercollege, Nicosia, Cyprus

Course Summary		
Course Code	Course Title	Recommended Credit Hours
CENG-480	Special Topics in Computer Engineering	3
Semester Offered	Contact Hours	Prerequisites
As needed	42	Consent of the Department
Department	Level of Course	Language of Instruction
Engineering	Upper Division	English

Course Description

Topics in computer engineering of unusual current interest not regularly covered in other courses; introductory treatment of new developments in computer engineering. The content may be varied to suit current needs. The course may, with permission of the department, be taken more than once.

Instructor

Dr. George Gregoriou

Course Aims and Objectives

To teach the students topics of current interest which are not covered in other Computer Engineering courses.

Teaching Methods

The course is delivered through lectures and presentations.

Course Teaching Hours

The course is 42 hours long and is delivered in 14 weeks (3 hours/week).

Evaluation and Grading

Continuous Assessment: 50%
Final Exam: 50%

Readings and Resources

Required Textbook
